KEY GUIDELINES FOR AUTHORS

- **Abstract.** All manuscripts require an abstract not exceeding 100 words.
- **References.** A maximum of 35 single references is permitted; multiple references (referring to more than one paper) are to be avoided.
- **Figures.** The manuscript should contain no more than 5 normal-sized figures.
- **Length.** The manuscript should not exceed the equivalent of 2500 words, including text, tables and figure captions (approximately 12 double-spaced pages).
- **Disk.** Authors are required to submit a disk with an electronic file matching exactly the hard-copy of the final version of their manuscript.
- **Submission.** Manuscripts should be sent to one of the editors or preferably to a member of the advisory editorial board who is familiar with the research field. When submitting a manuscript, authors are requested to suggest the names, addresses and e-mail of three appropriate referees.
- **Communication.** The full postal address, fax number and e-mail address of the corresponding author must be given on the first (title) page of the manuscript.
- **Enquiries.** For specific enquiries on the preparation of electronic artwork, consult <http://www.elsevier.com/locate/authorartwork/>
For enquiries relating to the status of accepted articles through our Online Article Status Information System (OASIS), author Frequently Asked Questions and any other enquiries relating to Elsevier Science, please consult <http://www.elsevier.com/locate/authors/>
Contact details for questions arising after acceptance of an article, especially those relating to proofs, are provided when an article is accepted for publication.

Complete Instructions to Authors are to be found on the last pages of each volume and also at: <http://www.elsevier.com/locate/cplett>

Authors employing LaTeX may download the Elsevier LaTeX instruction package from: www.elsevier.com/locate/latex

You may also contact Global Rights directly through Elsevier's homepage (<http://www.elsevier.com>), by selecting 'Obtaining Permissions'. In the USA, users may clear permissions and make payments through the Copyright Clearance Center, Inc., 222 Rosewood Drive, Danvers, MA 01923, USA; phone: (+1) (978) 7508400, fax: (+1) (978) 7504744, and in the UK through the Copyright Licensing Agency Rapid Clearance Service (CLARCS), 90 Tottenham Court Road, London W1P 0LP, UK; phone: (+44) (20) 7631 5555; fax: (+44) (20) 7631 5500. Other countries may have a local reprographic rights agency for payments.

Derivative Works

Subscribers may reproduce tables of contents or prepare lists of articles including abstracts for internal circulation within their institutions. Permission of the publisher is required for resale or distribution outside the institution.

Permission of the publisher is required for all other derivative works, including compilations and translations.

Electronic Storage or Usage

Permission of the publisher is required to store or use electronically any material contained in this journal, including any article or part of an article.

Except as outlined above, no part of this publication may be reproduced, stored in a retrieval system or transmitted in any form or by any means, electronic, mechanical, photocopying, recording or otherwise, without prior written permission of the publisher.

Address permissions requests to: Elsevier Science Global Rights Department, at the mail, fax and e-mail addresses noted above.

Notice

No responsibility is assumed by the Publisher for any injury and/or damage to persons or property as a matter of products liability, negligence or otherwise, or from any use or operation of any methods, products, instructions or ideas contained in the material herein. Because of rapid advances in the medical sciences, in particular, independent verification of diagnoses and drug dosages should be made.

AUTHORS

**If you want to make the best of your artwork
send it in the correct digital format**

All articles accepted for publication in Elsevier Science journals are processed using electronic production methods. Authors should therefore ensure that their artwork conforms to the following guidelines:

- **Colour and greyscale images** should be supplied as **TIFF** or **EPS** files (resolution 300 dpi).
- **Line drawings (black & white or colour)** should be supplied as **EPS** files

If you need help to create files in these formats, go to www.elsevier.com/locate/authorartwork/formats

Please also note:

- We still need a good quality hard copy of each figure in case the electronic file cannot be used. The hard copy and electronic file must match exactly.
- We can use floppy disks, ZIP disks or CD-ROM. Artwork files should be on a separate disk or CD to article text files.
www.elsevier.com/locate/authorartwork/media
- Only standard fonts should be used, for example:
Times, Times New Roman, Helvetica, Arial, Symbol
www.elsevier.com/locate/authorartwork/formats
- Lines should be a minimum width of 0.5 pt.
www.elsevier.com/locate/authorartwork/linewidth
- Only standard colours should be used.
www.elsevier.com/locate/authorartwork/colours
- Lettering should be a consistent size and appropriate to the size of the figure.
www.elsevier.com/locate/authorartwork/sizing
- An image which looks acceptable on a computer may not reproduce well, so it is important to ensure that these guidelines are followed.

■ Your article published with Elsevier Science is also included in ScienceDirect, the world's largest scientific network, reaching over 9 million scientists and researchers at www.sciencedirect.com.

■ If your institute or organisation currently subscribes to ScienceDirect, you now have access to the full text of those journals in your subscription package at your desktop.

■ ScienceDirect allows you to keep track of citations to your article via e-mail. You can set up a personal profile to ensure you are kept up-to-date with publications in your specialist areas of research.

■ The publication of your article is announced in advance to thousands of registrants to our FREE e-mail alerting service **ContentsDirect**. Find out more by accessing www.elsevier.com/locate/contentsdirect

■ Your article will be available in the ScienceDirect electronic archive and as such accessible to the millions of scientists visiting our database for an unlimited period of time.

ScienceDirect provides the articles **you** need for **your** research – www.sciencedirect.com
